Move. Tow. carry. Haul.

Shuttle

The Shuttle moves four to six passengers safely and quietly. PURE ELECTRIC power means your passengers will not be subjected to exhaust fumes, and your operation costs will stay low.

With a mature design the Shuttle puts controls right where you expect them to be. A low step-in height and class leading seating offer your passengers convenience and comfort.

The reliability and low maintenance design of the electric drive system powering the shuttle will keep operating and maintenance costs well below those of an internal combustion vehicle.

Perfect For:

- Amusement Parks
- Hospitals
- Airports
- Government Facilities
- Personal Transportation
- rports Zo
- Zoos
- Wherever clean transportation for passengers is needed

Shown with Elite™ bolstered cushions & rear facing seat.
